

STANDARD OPERATING PROCEDURES

COMMERCIAL SIZE BARBECUES

Commercial size self-contained barbecues are allowed at Cuesta and Rengstorff Parks provided approval was granted at the time the reservation was made and a permit issued. The following rules and guidelines shall be followed:

- Commercial size barbecues must be set up in specified locations only. Cuesta Park—concrete area in front of preparation tables and opposite barbecue grills. Rengstorff Park—ramp/concrete area in front of barbecues. Check with ranger if clarification is needed on setup location.
- Charcoal only; no propane.
- Tarp or cover must be put down underneath the barbecue unit unless the bottom of the grill is fully sealed and will not stain ground.
- Unit must be properly stabilized and locked in the position so it does not roll.
- Unit must be installed **without driving a motorized vehicle into the park**. A hand truck or cart must be used. Cuesta Park does not have a drive-up location.
- Group must clean up after use. Charcoal must not be left at the site. Groups are responsible for removal of charcoal.
- The City takes no responsibility for the barbecues. The contract is between the user and the vendor. Use at your own risk. All directions should be followed; set up, use, supervise and take down in a safe manner.
